We are learning about this final vile person; this deceitful politician... who will rise up in the last days. In this verse, we learn about his domestic policies.

<sup>24</sup> **He with a small group of elites...** to throw off suspicion... **will enter peaceably even the fattest places of the province** / this pretender, man of peace with his advisors will be working behind the scenes; the last roman govt-gone-wild will include **10 rulers**; probably 10 leaders of different nations -- **Revelation 17**; **this small group** attempts to keep the global agenda in balance; **plus this one**: the most despicable politician. They will be driven by the great whore of Babylon; and you have to wonder what 11 political leaders... in alliance with Rome, are doing similar dissembling, things in their countries, i

And just an aside: next time you hear a skinny little kid or whiny ass parent with 6 or 7 children... acting in a TV commercial asking for a donation; just direct them to the nearest public school... where food each year - even free food in the inner-city is thrown away by the truck loads. The amount of food wasted in USA govt schools: from public elementary through universities could eliminate the hunger problem of the world.

It is not the responsibility of the church to feed all those that govt's keep poor and dependent; though it is always my responsibility to help my neighbor.

➡ **he** / with a small group of elites, **will enter peaceably, even the fattest places of the province** / and the fattest places in this province are places like: Holmby Hills, Bel Air, and Beverly Hills... to River Oaks, and all the way to the Plaza District in Midtown Manhattan. And why does he go there... with a small group of elites... to throw off suspicion?

**he will do what the fathers did not do, nor their fathers' fathers** / Daniel is learning about the founding fathers of some country? They didn't do it either. So what is he going to do?

**he will scatter among them the prey, and spoil, and riches** / **being steered by a small group of people in the nation where he rules**; that is how the King James Version says it. The New American Standard Bible says, **He will distribute... plunder, booty and possession among them**. The New International Version says, **He will distribute and plunder, loot and wealth with his followers**. What? Will that include cell phones?

**Notice this first policy** highlighted by Daniel is: **to redistribute wealth**. In the 1980s, Dr. Gene Scott said... these words indicate he will be an elitist... with **socialistic** policies.

Verse 22 said, **he does his work with army-like force; with a militaristic mindset** -- though he is a grinning... man of peace; yet he will work hard as iron... to sweep away all. And his socialistic policies are being driven by the whore of Babylon... in the last days. And does he have other domestic policies?

**yes, and he will forecast his devices against the strong holds** / The New American Standard Bible says, **and he will elaborately devise his schemes against strongholds**; e.g. army fortresses. The New International Version says, **He will plot the overthrow of fortresses**. What?

Notice this second policy highlighted by Daniel is: **to overthrow strongholds – army fortresses**; so to recap, the 2 domestic policies in the spotlight of this prophecy are: his desire to **redistribute wealth**; and his plot to overthrow strongholds -- army fortresses. What? He wants to weaken their defense; and you wonder, does that include their 2<sup>nd</sup> amendment – right to bear arms?

So the last generation of God's people should be watching for a despicable politician with these characteristics. Already Daniel said: this man will appear to work peaceably;

**even for a while** / this guy is allowed to work his deceit for a while; until God pulls down the rulers.

Next Daniel tells us about his international diplomacy:

<sup>25</sup> **And he will stir up his chameleon power** / this vile person; this despicable politician, with a small group of elites...

/ in chapter 8... we learned a ruler comes in this power: this **chameleon power**... and he will destroy wonderfully and will practice and prosper; he will succeed at what he does. And he will destroy mighty soldiers, and God's people. Remember: this citizen of eternity said to Daniel I come to help you understand what will happen to your People **in the latter days**. And now, we understand this vile person... rules over a nation of God's people, and don't you wonder where?

**he will stir up his chameleon power and courage over the king of the south with a great army** / over the leader ruling in Egypt; we see that army in the news all the time; this country just made it greater... sending gobs of airplanes to add to this great Egyptian army.

**and the king of the south will be stirred up to battle, with a very great and mighty army** / to meddle and contend with some ruler of Egypt... we learn about that very great and mighty army... in chapter 8. Is it the mighty army of **the whole House of Israel** standing up... that we read about in **Ezekiel 37**?

**Egypt will be stirred up to battle; but he will not stand, for they will devise plots over him** / in other words: Egypt would want to contend with the very great and mighty army, but in spite of his bravado and bluster... he retreats.; with **this small group of elites**, they invent and fabricate plans... they plan to overthrow the chief ruler in Egypt. **trying to stay invisible**... to throw off suspicion?

<sup>26</sup> **Yes, they who feed of the portion of his meat will destroy him** / as Antiochus Epiphanes corrupted the officers of Ptolemy over 2,000 years ago; so, this vile politician will do the same. **And through familiar friends and officers and confidants... he would likewise topple an Egyptian ruler in the last days**. He will be shattered and broken in pieces.

**and his army will overwhelm: and many will fall down slain** / is that the Egyptian army? It seems we are reading about international intrigue; or is it the vile politician's army? For 2 years, we watched that happen through the Egyptian news media... as the Egyptian army suppressed portions of their citizenry; **but** if that is the vile politician; then we have watched so many nations -- being brutally disrupted and destroyed -- at tax payer dollars expense; terrorists terrorizing in the supposed war on terror.

<sup>27</sup> **And both of these rulers' hearts are set to do evil** / the vile person who seemingly came in peaceably to rule his nation, and the 'king of the south -- and do our math because this seems like a new Egyptian leader... took the shattered Egyptian ruler's place. Did somebody get deposed?,

**and they will speak lies at one table one to another** / we already learned this despicable ruler...this antichrist, he throws truth to the ground. So, he is sitting at that table flattering the Egyptian ruler... and whatever slippery words were said... were dished back with equal insincerity,

**but it will not prosper: for yet the end will be at the appointed time** / God changes the times and the seasons, setting up and pulling down.

**And now, was not... the time appointed.**

<sup>28</sup> **Then he / this vile politician** will return to his land of great riches / and if you are like me, you might ask: where is this country of great riches? Because it seems like the place where I live.

**and his heart will be against the holy covenant** / so we just learned a secret in this evil politician's heart...for a second time, why does Daniel tell us that? We knew it from other chapters.

**he will do something / what?!** We are not told. But we can be certain he won't be praying for the peace of Jerusalem; that would not be on his agenda.

In their attempts to establish a new system of value, C.S. Lewis soberly wrote, [they] hope to confer on future generations that were never going to exist. Then he will see the massacres, the faked trials, the deportations, to be all conspicuously real... while the future Utopia had never been anything but a fantasy.

**he will do something** and from the next words we see he likes to travel a lot! In the last days he is going to fly around a lot. Can you imagine if he actually goes to Jerusalem with that secret hatred for the Covenant in his heart?

**and return to his own land.**

Who is this vile politician? And where is his own land? At present, we do not know. Obviously, the appointed time, the time set by God, determined by Him alone, is not yet.
