The Flood,

**<sup>1</sup> Then the LORD said to Noah,**

**Enter the ark,**

**you and all your house** / in Hebrew: **bayit**; this is the first time this word is used in the Bible; it's interesting, it is the same word for where the people of God will gather to hear the Lord teach them all His ways – **Isaiah 2**; so, does anybody think Noah and his 3 boys were going to knock down the chimney and windows and walls and doors of their place and carry it all into the ark? Good! That's what I hoped to hear. I didn't think so either. This word speaks to

Noah and his faithful family.

This royal family of 8: Noah, his 3 sons and their 4 wives... Noah and his family -- are the ones [at the center of the euhemerism debate](#); the debate for millennia that interprets the mythological accounts as to have originated from real historical events and persons; this was the main, accepted method of describing history into the 1800s.

**for you only I have seen righteous before Me in this generation.**

**<sup>2</sup> You will take with you every clean animal by sevens, a male and its female: and of the animals that are not clean two, a male and its female,**

**<sup>3</sup> also of the birds of the sky by sevens, male and female; to keep offspring alive on the face of all the earth.**

**<sup>4</sup> For after seven days, I will send rain on the earth forty days and forty nights; and I will destroy from the surface of the earth every living thing that I have made.**

**<sup>5</sup> And Noah did according to all that the LORD commanded him.**

Time to go,

**6 And Noah was six hundred years old when the flood of water came upon the earth.**

**7 Then Noah and his sons, and his wife, and his sons' wives with him, entered the ark, because of the water of the flood.**

**8 Of clean animals and animals that are not clean; and birds, and everything that creeps on the earth,**

**9 there entered the ark to Noah, two by two, male and female, as God had instructed Noah** / notice in God's creation, things are orderly; even the animals had enough sense to come to Noah. They knew being around Noah was as safe as it would get. Isn't it interesting how animals know when something different is happening? And I'm sure when they met very loving Noah, some animals, like our own household pets, they quieted themselves, laid down and started to rest. Some scholars have pointed out that there are animals that can hibernate for months undisturbed; other animals hibernate for about a week, awaken long enough to nibble on whatever food is available, and return to hibernate.

**10 And it happened after seven days** / after a week of getting the 30,000 critter kinds promptly settled on board, suddenly it began; electrical atmospheric disturbances like they had never seen.

**that the water of the flood came upon the earth.** **The Ark | The Reality of Noah's Ark**

**11 In the six hundredth year of Noah's life, in the second month, the seventeenth day of the month, on the same day:**

**1 all the fountains of the great deep were broken up** / even the subterranean springs as well as underground volcanic structures were suddenly active; how? God did it, as He works His miracles in time;

**2 and the windows of heaven were opened** / the earth has enough water to cover all of it 1 ½ miles deep. The early earth - probably a flat earth... had very few high mountains, the massive mountain ranges were pushed up during this catastrophic event, which is why we find fossilized sea creatures on the top of Mount Everest and all the other mountain ranges.

**12 And the rain was upon the earth forty days and forty nights.**

**13 On the same day: Noah, Shem, Ham, Japheth (the sons of Noah) and Noah's wife, and the three wives of his sons with them, entered the ark** / most people have a hard time imagining God would only save 8 people and destroy the rest of the world; but then most people in the church do not really believe Jesus said, [Enter by the narrow way, few there be who find it;](#)

<sup>14</sup> they, and every beast after its kind; all the cattle after their kind; every creeping thing that creeps on the **earth** after its kind, and every fowl after its kind, every sort of bird.

<sup>15</sup> And they entered the ark **to Noah**, two by two of all flesh, **in which was the breath of life** / the animals they all gladly went into the ark to Noah. Check out: **Wild Animals showing love to Humans**

<sup>16</sup> And those that entered, male and female of all flesh, entered as God instructed him: **and the LORD shut him in** / He closed the door; and I bet none of those little birdbrains and critters complained about the food and the accommodations; or even made the slightest ruckus with any of their neighbors during the entire boat ride.

<sup>17</sup> And the flood was forty days upon the **earth**; and the water increased, and lifted up the ark, and it rose above the **earth**.

<sup>18</sup> And the water prevailed, and increased greatly upon the **earth**; and the ark floated on the surface of the waters.

<sup>19</sup> And the water prevailed more and more upon the **earth**; and all the high hills, that were under the whole heaven, were covered / at this time they were only hills as the rain poured nonstop.

<sup>20</sup> The waters prevail fifteen cubits higher and the mountains were covered / turning the spigot on for another 22 feet of water was all that was needed to silence the last violence-loving fool.

<sup>21</sup> And all flesh that moved on the **earth** died, birds and cattle and beasts, and every creeping thing that creeps on the **earth**, and every man / including dinosaurs, and all of Adam's race:

<sup>22</sup> of all that was on the dry land, **all in whose nostrils was the breath of life**, died.

<sup>23</sup> Every living thing that was on the surface of the **earth** was destroyed, man and animals, creeping things and birds of the heaven; they were destroyed from the **earth**: and Noah only was left, with those who were with him in the ark.

These geological structures appear throughout the earth; and are evidence of Noah's flood; only formed rapidly by sediment mixed with water in a catastrophic and disastrous event... the likes we have never seen.
